

# Associate General Counsel, Oculus Ecosystem

(Menlo Park, CA)

Careers at Oculus  
A Facebook Company

Oculus seeks an Associate General Counsel for its Oculus virtual reality ecosystem business. Oculus invents, manufactures and sells industry leading virtual reality headsets and operates a global virtual reality content and social platform. This position provides global legal and regulatory advice and negotiates deals, with a focus on mobile or console platforms and software. Success in this position will require applying a complex and evolving global legal and policy framework to new and innovative products and services. This is a unique opportunity to work on cutting-edge issues in a fast-paced start-up environment, as Oculus leads the field of virtual reality.

## Responsibilities

- Significant industry experience and legal expertise representing mobile or console platforms and software globally
- Be a product counseling and transactional generalist: support business objectives related to mobile, social, video, developer relationships, consumer products, live ops services, e-commerce & payments, marketing, competition law and privacy
- Build positive and influential relationships with executives, product teams and peers across Oculus and Facebook
- Collaborate with subject matters experts at Oculus and Facebook to analyze and communicate legal risks.

## Requirements

- JD degree with membership in at least 1 state bar
- 10+ years combined law firm and in-house experience with technology companies, with international and litigation experience a plus
- Active curiosity and experience with emerging technology products and services
- Ideal candidate will have demonstrated success building influence with tech entrepreneur executives and advising platform and software teams directly
